

MOUNT ST. MARY
HOSPITAL • CARE WITH COMPASSION

Dear Residents, Families & Friends,

The summer weather is upon us, at least for the coming weekend. We have measures in place to keep our residents cool and hydrated during the hot days. The residents are enjoying visits among themselves and with their loved ones indoors and out.

We held our AGM yesterday and reviewed some highlights of the past year. Please find attached our 2020-2021 Annual Report . It was indeed a year with many challenges, but many opportunities were found as well.

Our Board Chair, Bill Ehmann, has retired from the Board and is thanked for his six-year commitment to Mount St. Mary, our residents and our staff. Bill and the Board have provided exceptional guidance to the organization, especially over the past year.

Rose Lopetrone RN, BScN, MA has joined the Mount St. Mary Team as our Director of Resident Care and she is spending time getting to know the organization, her team, the residents and families. She brings expertise of seniors care, quality improvement and leadership to her role.

Please be reminded that we continue with precautionary measures per our public health officials. Masks must be worn by all visitors at all times while visiting, whether indoors or outside. We thank you for your support in keeping our residents and staff safe.

Kind regards,
Sara
